RINGLEADER IN CUSTODY

It Is Alleged That Garrett Johnson Is a Ringleader.

EVIDENCE IN HAND.

Report From Tiptonville Is That Burton Has Broken Completely Down and His Confession Implicates Three Hundred Obion County Men.

Samburg, Tenn., Oct. 28.—The ringleaders of the night riders in this section is alleged to be a prisoner in Camp Nemo, near here, named Garrett Johnson. It is the general opinion that Garrett, if he can be compelled to talk, will tell more about the outrage than any other man under arrest. Not less than forty men who have been connected with night riding in this territory are under arrest and enough evidence has already been collected, it is declared, to hang at least four men.

The confession of Tid Burton is the sensation of the day both here and at Union City, and it is believed he has not yet told all he knows about the killing of Captain Rankin.

The latest report to reach here from Tiptonville is that Tid Burton has broken down completely and that his confession implicates 300 men from Obion county. One hundred others are believed to be guilty. Even the oath taken by the night riders has been confessed, though officials will not make public the exact wording. Seventy or more prisoners are now at Camp Nemo closely guarded and Garrett Johnson, together with his brother, Tom, and William Watson, kept in solitary confinement.

All Records Broken.

Waxahachie, Tex., Oct. 28.—The grand jury Wednesday returned sixty-nine indictments and recessed. During its four weeks' session it returned 110 indictments, breaking all records here.

Rurales Ordered to Scene.

El Paso, Oct. 28.—Rurales have been ordered to the mining camp of Indio, state of Durango, Mex., in consequence of three atrocities. Barney Townes, an American mining man, was killed beside a road and his body dragged into the bushes, where it lay several days. Next Francisco Arriola, a wealthy planter, was found murdered in the same region, and last Sunday the dead body of Senor Candilla was found. The rurales have been ordered to hunt down a noted bandit, said to be in the locality.

Lying Face Downward.

Hot Springs, Wash., Oct. 28.—Body of Fred W. Kloeber was found a mile from the spot where the corpse of Julius Kumble was discovered last Sunday. That Kloeber was killed instantly and within a short time after leaving his companions the body conclusively shown. When found he was lying face downward with his head crushed against the roots of a tree, where he had been thrown by his foot catching on a log covered with snow, probably while making great speed in his efforts to get out of the mountains before dark.

Kloeber had been connected with the Washington bureau of the Associated Press, and acted as special correspondent for leading Chicago and other dailies.

Fumes Fatal to Many.

New Orleans, Oct. 28.—Deadly fumes from Mexico's great oil well fire, sixty miles from Tampico, have killed more than a score of workmen during the past few days, completely blackened the white paint on the side of ships, endangered commerce and caused thousands of dollars' damage to ranches and other neighboring interests, according to Captain Michael Henrichsen of the steamship City of Mexico, which has reached New Orleans.

The Duchess' Philosophy.

The old Duchess of Cleveland invited a relative to her husband's funeral and told him to bring his gun, adding, "We are old, we must die, but the pheasants must be shot."—Sir Algernon West's Reminiscences.

FALCONIO CELEBRANT.

Pontifical Mass Begins Centennial Anniversary.

Boston, Oct. 28.—With most of the highest officials of the Roman Catholic church prelate in America active participants or interested spectators in the impressive ceremonies of the solemn pontifical mass of which Most Rev. Diomedo Falconio, papal delegate to Washington, was celebrant, the five days' observance of the centennial anniversary of the founding of the diocese of Boston was begun in the Cathedral of the Holy Cross.

Archbishop O'Connell of the Boston diocese, in the office of preacher, of

ferred a "thanksgiving for the blessings giving us during these first hundred years of Boston's existence as a diocese."

Besides the church dignitaries there are also present Governor Guild, Mayor Hibbard and other representatives of the state and city governments and judiciary.

BURIALS AT NIGHT.

Thirty Members of the Ministerial Alliance Favorable to This Idea.

Alton, Ill., Oct. 28.—Funerals at night is the latest idea in Alton. Thirty members of the Ministerial alliance, in session here, unanimously advocated the idea advanced by Rev. Eltel George.

"It would be much better to have funerals at night," he said, "and there should be no Sunday funerals, either day or night. Funerals nowadays are too extravagant. Too much money is spent on flowers and carriages and there is entirely too much display. From an extremely solemn function the funeral has developed into an occasion for vulgar show."

Mr. George also advocates a radical reform in funeral sermons. "The safe thing to do would be to preach a gospel sermon," he said. "I would say nothing good about the deceased unless it were justified by the facts. Even then I would make it very brief."

Not Permitted to Speak.

Indianapolis, Oct. 28.—Emma Goldman was led from the Propyleum when she was about to address a large audience that had assembled at the fashionable club house to hear her. Twenty policemen were on hand when she arrived and as she stepped into the hall she was told that she would not be permitted to speak in this city. She demurred at first, but the officers gathered around and she was informed that she would have to go to the police station if she persisted. She did not make any further resistance.

Ben L. Reitman, who was with her, attempted to speak on a corner near the Propyleum, but the police forced him to desist under threats of locking him up.

Aged Man Released.

St. Petersburg, Oct. 28.—Nicholas Tzchaikovsky, the aged Russian patriot, who has been imprisoned in this city for nearly a year, has been released. The fund subscribed in England to cover the bail demanded by the Russian government for Tzchaikovsky's release was received here and deposited in the Imperial bank.

Washout Not Repaired.

Tulsa, Okla., Oct. 28.—The washout of 1,500 feet of track at Verdigris is not yet repaired and Frisco train service will be delayed two more days.

Murderers Break Jail.

Indiana, Pa., Oct. 28.—Three convicted murderers broke jail.

THE COTTON MARKET.

The rumor of a day or so ago to the effect that a bull campaign would likely be inaugurated in the cotton market was confirmed to some extent Wednesday, and advices even went so far as to name those at the head of the move. It is stated with some authority that Theodore Price and Dan Sully will manage the move, but of course it depends somewhat on the farmers themselves to make the effort a success. The effect of the combination of these two recognized cotton operators was felt in the strengthening tone of the market yesterday. Notwithstanding heavy receipts the price is 1-16c better than the day before, and the tone of the market is strong.

Liverpool opened 4 points up, and closed the same.

The American markets opened 2 and 3 better, ruled steady throughout the session and closed 3 to 4 up. The fact that the bears were unable to break the market in the face of a large ginners' report is regarded as a confirmation of the reported combine for higher prices between Price and Sully.

The Bryan spot market has more than responded to the future advance. All local buyers were in the market Wednesday and a better tone predominated throughout the day, 200 bales or more being sold as against 50 and 75 for the two days previous.

The prices:
Strict low middling, 8 3-16c.
Middling, 8 9-16c.
Strict middling, 8 11-16c.
Good middling, 8 13-16c.

Liverpool is due unchanged Thursday.

POLITICS AND POLITICIANS.

Thomas L. Hisgen, candidate of the Independence party for President, will close his campaign with a speech in his home city of Springfield, Mass.

The Prohibitionists hope and predict that they will be able to hold the balance of power in the lower house of the next Illinois legislature.

Judge Taft will speak at noon Monday, the day before the election, at Cleveland, and at Youngstown, O., the night of the same day.

Reversing the custom of eighty-odd years, Missouri will nominate its United States senator by direct vote of the people at the polls at the general election next week.

On the day before election William J. Bryan will leave Kansas City in the morning for a trip across Kansas to Lincoln, Nebr., delivering speeches en route at Leavenworth, Atchison and several other points.

Representative Walter I. Smith, who has represented the Ninth Iowa District in Congress for the past eight years, is being mentioned in connection with the Speakership in the event of Representative Cannon failing of reelection.

In twenty-three States a total of ninety proposed constitutional amendments, laws, questions, or propositions, will be accepted or rejected by the people in the elections of next Tuesday.

Seven names have been filed for the Republican nomination for United States Senator in Missouri, as follows: David W. Hill, former speaker of the House of Representatives; John Kenish, former state senator, now assistant attorney general; Col. Richard C. Kerens, former Republican national committeeman; John C. McKinley, present lieutenant governor; Chauncey I. Filley of St. Louis; Jacob F. Schmitter of Morgan county and Joseph Black of Ray county.

California is one of the latest States to agitate election reform. The people of that State in the election next Tuesday will vote on a proposed constitutional amendment, among others, empowering the legislature to enact a direct primary law providing for the direct nomination of all candidates for public office. The advocates of the proposed law have been working hard and entertain strong hopes of a favorable decision at the polls.

In South Dakota the question of repealing the "one year residence" act, which was passed by the last legislature in order to stop rapid divorces, will be submitted to the voters at the coming election. Formerly, suit for divorce could be brought after a six-month's residence in the State. Opposition to this short term of residence resulted, and the one-year act was passed. The latter has been objected to in certain quarters and petitions finally were secured for the submission of the one-year act to a vote of the people.

NEWS AND NOTES OF SPORT.

The Virginia Polys were the first to score against the Princeton eleven this season.

Under their new leader, "Cap" Coy, the Yale team is working in great shape.

Gettysburg College has the honor of making the first score against the University of Pennsylvania team this year.

Since 1888 Harvard and Dartmouth have met on the gridiron 19 times. Harvard has won 14 of the games, lost 2 and tied 3.

Billy Delaney, the veteran trainer, says that Al Kaufman is ripe to go after the heavyweight title with Tommy Burns as the party of the first part.

A new field of racing is soon to be opened up to American horsemen. A plan is well advanced for the establishment of a winter circuit in Mexico, with the City of Mexico as the center. It is said the necessary concessions have been obtained from the Mexican government.

Strike-out records for the past season show Ed Walsh of the Chicago Americans with 264 for 52 games; Christy Matheson of the New York Giants with 252 for 46 games; Rube Waddell of the St. Louis Browns with 241 for 32 games and Nap Rucker of Brooklyn 198 for 38 games.

KEEP MONEY IN BRYAN

Vick's Mill One of the City's Most Useful Institutions.

The Eagle has often remarked that whatever brings money from abroad and whatever keeps money from going away ought to have the moral and material support of every citizen of Bryan. Among the comparatively new enterprises of this sort, none is more meritorious and deserving of patronage than the mill established a few months ago by Mr. John Vick. Those who have not seen his plant ought to take the time to look through it, and nine out of ten of those who do so will be surprised at what they see. It is not large nor pretentious, but everything is up-to-date, and in perfect working order.

The representative of the Eagle who spent a few minutes in the mill yesterday was astonished at the volume of the business Mr. Vick has built up in a very short time. He is using now an average of one carload of corn per week, all of which he buys from Brazos county farmers, paying the highest market price. Unfortunately the home product will soon be exhausted and Mr. Vick will then have to look elsewhere for his supply. The money he is paying for home raised corn goes into the pockets of Brazos county farmers and increases the volume of the circulation. If the home supply were sufficient to meet his demands for the entire year the result would be an immense saving to the entire community. It is hoped that next year the corn acreage will be increased to an extent sufficient, at least, to supply the home market.

Mr. Vick is now supplying practically all the retail grocery merchants of Bryan and Brazos county with corn and chops, thus saving all that has heretofore been sent abroad for these staples. He estimates that the saving thus effected will amount to \$15,000 to \$20,000 a year.

Mr. Vick visited the Dallas fair with a view of studying the machinery in his line and he is now figuring on improvements to be made in the near future. He expects to add to his equipment in a short time a husker and sheller of the most improved type.

For two years now there has been a great deal of complaint about Villa Nova's rough football play. Yale scratched the Pennsylvania institution from its schedule this fall on account of the team's rough work last year.

LABOR NOTES.

The first union of hatters in the United States was founded in 1809.

The open hearth department of the Carnegie Steel Company at Homestead has started the double turn.

The Howard Axle Works of the Carnegie Steel Company have started up two departments after a considerable period of idleness.

The Iron Molders' Union of North America is planning to celebrate its fiftieth anniversary next year in an appropriate manner.

A new union of blacksmiths, affiliated with the International Brotherhood of Blacksmiths, has recently been organized in Dunkirk, N. Y.

The Boston Sheet Metal Workers' Union and the respective employers have renewed for another year the \$3.60-eight hour day agreement.

The professional stone-carriers in India work ten hours a day under favorable climatic conditions and their wages vary between ten and sixteen cents per day, according to locality and the strength of the man.

Metal polishers, buffers, platers and brass and silver workers' unions of Boston have already begun their preparations for the international convention of their organization, which will contain a hall so large that it will accommodate conventions.

Steps are being taken by the shoe workers of the Minneapolis, Minn., shoe workers' union for the establishment of a class to study the make-up of a horse's foot and its best treatment in shoeing, the class to run through the winter. A competent veterinarian will be employed for the lectures.

The feeling in England is that the cotton mill strike will not last long, for the cardroom workers are expected soon to take a second ballot and agree to the five per cent reduction in wages, which already has been accepted by the spinners belonging to the general organization.

The Three-I League salary limit for next season will be \$1,600 and any player who can prove that he is getting more than his contract calls for will be entitled to his immediate release.

Never before have you had the selection of Haviland China in Bryan to choose from as I now have on sale in sets and open stock. Our prices are less than is charged in the larger cities for the same quality of goods. Tyler Haswell. d277w1

WILL STAND TRIAL.

Pierce Soon to Be In Court at Austin.

Austin, Oct. 28.—Henry Clay Pierce is coming back to Texas to answer to indictment returned against him in this county charging him with false swearing. The governor was advised by Judge Barclay of St. Louis, who represented the state in the hearing of Pierce, announcing that Pierce will leave for Texas and be here on Nov. 9 to stand trial. Also that Pierce said he would have come earlier, but his health prevented it. Pierce is now at his summer home, in Massachusetts.

Private Secretary Barton to Governor Campbell said that this will put an end to any efforts to get a requisition from the governor of Massachusetts for Pierce.

The case will be tried before Judge Calhoun of the Fifty-third district court, but it is believed that an effort will be made to get a change of venue.

Texas Likely to Win.
Washington, Oct. 28.—That Texas is likely to win the receivership case against the Waters-Pierce Oil company was shown Wednesday to a certain extent by the apathy of trust attorneys and enthusiasm and confidence of Texas lawyers. It is firmly believed in court circles that the supreme court will throw out the suit, in which case the company must pay the huge penalty assessed. The company's attorneys will make a fight against the combination of receivership and penalty cases. Texans expect the dismissal of the company's appeal. Messrs. Davidson, Lightfoot, Bates and Allen are representing the state.

Hatfield to Be Held.
San Jose, Cal., Oct. 28.—District Attorney Free has made formal charge against William A. Hatfield. He is charged with murder of Major McGlinchy in 1896. Other witnesses claimed A. Hatfield is really Dunham. The preliminary hearing will be set for an early date. Old acquaintances of Dunham will testify as the Hatfield's identity. Future action of the officers will depend upon the result of this hearing. The prisoner refused to discuss his past life or tell his whereabouts the last fifteen years. Hatfield reiterated his statement that if released he will remain here.

Invades Kentucky.

Samburg, Tenn., Oct. 28.—A lack of knowledge of the country was the cause of a violation of the constitution of the United States by Captain Rogan of the regular army, when he marched a body of armed men across the border into Kentucky searching for night rider suspects. Captain Rogan was in command of a detachment operating in the extreme northern portion of the state and after some hours of marching found himself in the sister state. Attempt to Burn Taxicab.

New York, Oct. 28.—An attempt was made to burn a taxicab by a man who was riding in it placing a quantity of white substance, which set fire to the cushion. The passengers escaped, and the driver, A. Morrison, extinguished fire before much damage had been done. Morrison then took the stick of white substance to a police station and while explaining the matter to the police, dropped it to the floor. A severe explosion followed. The station was filled with white smoke and fire burst out instantly. The fire was put out after much damage had been done and Morrison and several others had been painfully burned. The police connect the affair with the strike of the drivers of the taxicabs which has not been settled. Morrison is a strikebreaker.
